

Database of list of students entering classes through 1953

by Jean Updegraff

“Here is a list from my database of the entering classes through 1953. An asterisk indicates they are deceased. However, some may have also died and we don’t know about it. I have my databases both in alpha order and by entering class. I think they are 90% accurate as far as names. There were some years with no Envoy (including 1954) plus 1970, 1975-78, and 1982), some students weren’t in the Envoy (especially if they didn’t complete the year), some married students were omitted. Some went under different names and some typos (Franklin Grawford was in one Envoy – and F. Scott Crawford in another = same person), plus typos and omissions on my part. As far as the deceased, there are more but we don’t know about them.” – Jean Updegraff
