HOWDY! HOWDY! HOWDY!

LAWDY! LAWDY! LAWDY! I've never attended such a meeting. If that wasn't one fo the most timely meetings in the history of the work I don'g know where to lood.

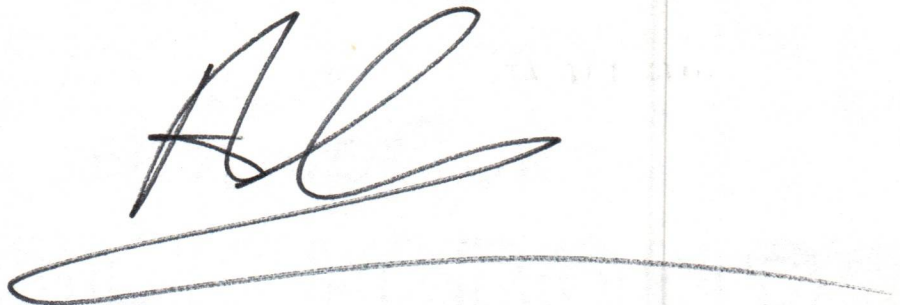

I just wanted to express my personal feelings about what you said about me. To say I appreciated it would be a gross understatement. I ;have always maintained that a mans name and reputation is of far greater value ;than riches (Prov 22:1). I have been very jealous of my good name and reputation. I can see by your comments that you feel the same way especially when it directly affects your family.

I too will protect my family with all my being and I appreciate the efforts of all who try to help. Your comments yesterday will go a long way to restore my reputation and I REALLY APPRECIATE IT!

As far as I now noe one else has even considered trying to help my situation. I am very thankful there is at least one person in the work who cares enough to put forth that kind of effort.

Ted I don't know what else to say. Thank you seems to be so inadequate but until I can think of something better----THANKS A MILLION!

With Deep Appreciation
And Christian Love
