RE: Portfolios & Hi-Lites

Greetings. I added 6 more Portfolios (old ones) this evening. They can be downloaded from <http://archive.livinguniv.com/index.php?p=digitallibrary/digitalcontent&id=273>

I have made the files with recognized text for easy copying so they are too big for email.

I located 20 of the tabloid size (too large for my scanner). We may use one of the heavy duty copiers as the scanner or will farm them out commercially. Will have to see.

Thousands of documents are in the physical LU Archive in our library but unclassified.

A retired old AC friend located three large boxes of old Portfolios and has sent them on to us for scanning. They should arrive shortly, perhaps tomorrow. I plan to focus on the 1950s and 1960s first.

Dr. Meredith had some old AC theses in his office storage. I hope to start scanning those that are not in electronic circulation beginning next week.

My plan is to be sure to share this material with you as we have mutual goals in preserving our heritage.

Warm regards,

MPG
