			"Earlier we made mention of the acquirement of Manor Del Mar, our finest men's student residence. This had been the mansion of Lewis J. Merritt, father of Hulett C. Merritt. It also was built with rare and beautiful wood paneling. It also had spacious grounds and a sunken garden. Here also we were required to install a fire sprinkler system throughout. This fine property, also, had come to us at an exceedingly low price — actually a fraction of its present value."			Photographs here
